Scheuten Solar signs EPC and O&M contracts with Loveld NV

Scheuten Solar has concluded a turnkey EPC (Engineering, Procurement & Construction) contract and a photovoltaics (PV) maintenance contract for the installation of nearly 3,500 solar panels with Loveld NV of Aalter, Belgium.

Loveld is active in the field of architectural concrete and incorporation of natural stone into precast elements. The solar panels with a total output in excess of 708 kWp are installed on the flat roof of Loveld's production facility at Aalter. A special feature of the installation is the innovative spoiler system. An aerodynamic housing around the solar panels ensures that no wind can get in under them and provides the required stability.

The roof system installation is one of a series of successful projects recently completed by Scheuten Solar in Belgium. Ad Verbaas, Director Project Realization: "Realization of this project is in full swing and the system will be operationally connected to the grid before the end of the year. Our cooperation with Loveld NV shows once again that Scheuten Solar is the right partner in Belgium."

"We at Loveld are aware that a professional and efficient approach is vitally important to the success of a project. This clarifies why we opted for Scheuten Solar, which so far appears to be the right choice. We are convinced that this investment in green energy fits perfectly into our strategy of sustainable entrepreneurship", stated Director André Vanhulle.

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1800 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.
