Dynamic presence of Scheuten Solar at ENERGY PV in Greece

From 22-25 October the exhibition ENERGY – PV 2009 was held at MEC Peania in Athens, Greece. More than 17,000 visitors had the opportunity to meet up with some of the largest manufacturers and installers of PV systems. Scheuten Solar, a global player in designing, manufacturing and applying photovoltaic solar modules participated in the exhibition with great success.

By presenting their high quality products and two major improvements in the warranty conditions of its Multisol® solar modules, Scheuten Solar attracted lots of visitors to its booth. Extending the product warranty from 5 to 10 years and improving the performance warranty for all Multisol® products proved to be a significant point of interest for a great number of visitors and other important contacts in the energy market.

Scheuten Solar is involved in the realisation of several multi-megawatt projects and many smaller scale projects in Greece. From the beginning of 2008 when Scheuten entered the Greek market, it has achieved a significant market share making it one of the leading PV companies active in the country. "I am satisfied with our leading presence in the Greek market and this was underlined at the ENERGY PV – 2009. We have a strong organisation and network in a part of Europe with lots of potential." stated Kostas Efthimiadis, Business Unit Manager Scheuten Solar Hellas.

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1800 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.
