Scheuten Solar introduces power solar module

During the Intersolar 2009 from 27 until 29 May, Scheuten Solar will present their new larger high performance Solar Module P6-66 and M6-66.

With the Multisol®. P6-66 and M6-66 Scheuten extends its complete range of high quality, German made solar modules, produced for a wide range of applications. Based on over twenty years of experience these modules are characterized by their long service life, above average yield and excellent workmanship. The quality and reliability of Multisol® modules makes them extremely cost-effective and represent a solid investment for the future.

The new product extends perfectly the complete product line of Scheuten Solar; a large module (1820x1000x42mm) with a power range of 240 Wp increasing to 265 Wp in 5 Wp steps.

The new solar module can be equipped with mono- or poly crystalline silicon cells and is available with a black or white back sheet foil.

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1600 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.
