Scheuten Solar signs Photovoltaic Power Plant Development & Realization Contract with Solesa S.R.L.

Scheuten Solar has signed a contract with Solesa Green Power for the development, realization and operations & maintenance of Photovoltaic (PV) Power plants in Italy with a minimum amount of 5 MWp per year. The first plant of 2 MWp is being developed and realized in the Lazio region. After the good cooperation in the sales & distribution of Scheuten PV modules, this is another important deal for Solesa and Scheuten in the Italian market.

The PV power plants will be installed in various parts of Italy. Whereas Solesa Green Power will provide the fully developed sites, local engineering & construction services and operations & maintenance and Scheuten Solar will provide financing arrangements and Engineering, Procurement & Construction (EPC) services.

“The Italian solar market has a good potential. Our ambition is to become a leading provider of PV solutions in the Italian solar market”, says Evert Vlaswinkel, Scheuten Solar Chief Commercial Officer. “We are very enthusiastic about further cooperation with Solesa”.

“Thanks to the combined experiences of Solesa and Scheuten we will be able to develop high quality EPC turn keys systems”, says Alfredo Giardina, CEO Solesa Green Power. “It is important to have the right partners in the development of EPC solar parks. Therefore we are looking forward to this cooperation with Scheuten Solar.”

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1600 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.

Solesa is a leading company in Engineering & Installations services applied to renewable energy. The company has a strong focus on solar photovoltaic and solar thermal energy. Solesa has extensive experience in electrical designs and has already designed, built and authorized several projects in Italy. The company's goal is to become a leading player concerning the development of solar parks larger than 1 MW.
