Scheuten Solar UL certified

Scheuten Solar, a global player in designing, manufacturing and applying photovoltaic solar modules, was recently certified according to UL1703 and ULC ORD C1703 for their P6-54 solar module in the Multisol® series. This certification underlines the high quality and the long-lasting performance of the Scheuten Solar modules and opens the way for sales and project activities in the USA and Canada.

Underwriters Laboratories® (UL) is an independent product safety certification organization that has been testing products and writing standards for safety for more than a century.

Scheuten Solar develops and realizes solar projects worldwide, so far most of them in Europe. The company has been exploring the highly potential US solar market for some time now and looks upon this UL certification as the final step towards a successful introduction of Scheuten Solar in the USA and Canada. The UL-listing (file E312512) enables the company to start marketing its durable and high quality solar modules.

“After a busy year of preparations and intensive contact with potential customers now is the time to really get things going. Next week Scheuten Solar is attending at the Solar Power International Conference in Anaheim, California. Acquiring the UL certification means that our sales team can rely on a first class product which has proven its quality in many successful projects in Europe”, emphasizes Dave Johnson, President Scheuten Solar USA.

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo. Scheuten employs a staff of nearly 1800 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.
