Scheuten Solar completes certification processes for US PTC rating at CEC amongst highest in the market

Scheuten Solar, a global player in designing, manufacturing and applying photovoltaic solar modules has achieved UL Listing, FSEC Certification and CEC Listing for its Multisol® P6-54 series of high quality PV modules.

The PTC* rating for the Multisol® P6-54 series now published by the Californian Energy Commission (CEC) is 90% of its STC* nameplate rating. This is higher than most of all other crystalline modules on the list of CEC eligible PV modules. The P6-54 recorded a low NOCT* temperature of 45 °C with a black frame and black back foil combination. The impressive thermal characteristics of the P6-54 result from the design approach for all components.

“Scheuten Solar is proud to achieve this high level in the PTC rating since it not only reflects the expectation on yield but also is fully in line with the general quality of the product. Scheuten Solar USA is happy to celebrate the milestones of UL Listing, FSEC certification and CEC Listing. After a busy year of preparations and intensive contact with potential customers now is the time to really get things going”, says Dave Johnson, President of Scheuten Solar USA.

*(STC) Standard Test Conditions

*(PTC) PV USA Test Conditions

*(NOCT) Normal Operating Cell Temperature

- END -

Scheuten is a leading and fast growing international high volume manufacturer of total solutions in glass and solar energy systems with its head office in Venlo, The Netherlands. Scheuten employs a staff of nearly 1800 and achieved a turnover of 467 million euro in 2008.

Scheuten Solar is a global player in designing, manufacturing and applying photovoltaic solar modules. Since Scheuten Solar was set up in 2000 it has evolved into a fully-grown organization boasting specialists in the fields of solar technology, manufacturing, project development and project realization. By managing every stage of the solar value chain Scheuten Solar guarantees the quality and performance of all products.
