SCHEUTEN PROJECTS

Scheuten Projects is an intense collaboration of GGP with Bischoff Glastechnik AG (BGT) and SITEC Produktions GmbH. Scheuten Projects focuses worldwide on project customers, who require high expertise in the field of glass and facades. The combined knowledge, experience and personal support from our project organisation, along with the enormous production resources for high quality glass solutions provide the essential performance to deliver projects successfully. More information can be found at www.scheutenprojects.com.

OUR COMPETENCES - YOUR ADVANTAGES!

REASSURING RELIABILITY AND DELIVERY PERFORMANCE

100% project focus with a network of impressive production capacity: Printing, tempering, laminating, isolating, gluing, finishing and more.

INDEPENDENT AND AUTONOMOUS

Access to all available coatings and glass types for even better fitting design and technical solutions.

COMBINED ENGINEERING KNOWLEDGE AND KNOW-HOW

Intensive cooperation of 3 companies specialised in projects with a combined experience of more than 100 years.

PERSONAL AND COMPREHENSIVE PROJECT COORDINATION

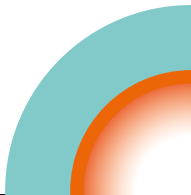

International cooperation for projects all over the world.

ADVANCED PACKAGING AND LOGISTICAL SOLUTIONS

Trouble-free shipment of high-end project glass all over the world.

...ALSO IN XXL GLASS

Up to 8.50 m x 2.70 m single and multiple laminated glass, and 6 m x 3.21 m isolation glass.

ADVANCED PRODUCTION RESOURCES

FOR YOU AVAILABLE IN 3 LOCATIONS:

- 6 tempering lines
- 5 silk screen print lines
- 5 laminated glass production lines
- 6 autoclaves
- 4 specialised ISO production lines for projects
- 1 BIPV production line

HIGH-END SPECIALTY GLASS SOLUTIONS

OPTISOL ®

BIPV solution with modern looks AND durability:

Elegantly generating solar energy through glass-glass integrated solar cells.

MEDIAGLASS ®

Transparent from the inside, LED-driven Information on the outside:

Far-reaching promotional messages!

MULTISAFE CLARITY ®

Anti-reflective glass, so clear and transparent, careful: don't walk against it!

SENTRYGLASS ®

Even stronger, even lighter:

Highly resistant to extreme temperature variations in hot climate conditions.

DESIGN IN FREEDOM AND COMBINE ENDLESSLY

Anti-reflective, laminated, tempered and/or printed glass, single or combined in twofold or threefold isolation glass: You combine, we produce!

*"Our strength is our combined knowledge, experience and capacity, and independent position in the international projects market. Both in the design phase and in the execution you will be assisted by our experienced project engineers. Our successful projects around the world are our proof!
Feel free to contact us."*
